

December 15, 2015

FUSION GENOMICS is currently seeking candidates to fill the following 2 positions:

Senior Computational Biologist

You have the qualifications and experience we need to lead the development of our Next Generation Sequencing (NGS) assays.

The successful candidate will be responsible for developing new NGS target capture panels and assays, and have extensive experience with NGS platforms such as Illumina and Ion Torrent.

Junior Computational Biologist

You are a postdoctoral fellow or MSc. with NGS experience needed to lead the development of our bioinformatics pipeline and methods.

The successful candidate will be responsible for developing and implementing our influenza and hepatitis C virus genotyping pipelines.

FUSION GENOMICS is located at SFU Venture Labs in Discovery Park on the main SFU campus in Burnaby, BC. We offer a highly competitive compensation package that includes a base salary and health benefits. Combine that with the opportunity and challenge to develop your career and we hope you will see **FUSION** as a great fit for your next career move
